"We have worked with inforevison for many years and have benefited from their competent and committed advice and consultation. We have also benefited tremendously from UHY – both when we needed an advisor on one of the markets where we operate, but in particular when we decided to set up a subsidiary in Sweden. In Sweden, we use Revisorarne Syd for auditing and accounting assistance. We greatly appreciate that we feel certain that the standard of the UHY partners that inforevison recommends is second to none. Also, we do not need to spend time finding a partner ourselves with whom we would not – all other things being equal – be just as comfortable from the beginning."

"We have worked well with Revisorgruppen for many years. Like other businesses, we are required to have our accounts audited, but for us, their role as our trusted advisor and partner is equally important. We are growing rapidly in Norway and abroad, and as it is extremely important to have strong external experienced partners who can advise in a wide range of areas when we are to draw up our strategies and plan for the future. This applies to our headquarters here and to our branches in the Netherlands, Sweden, Denmark, Finland where Revisorgruppen has brought in UHY, says Are Pedersen, CEO of Response Nordic AS – distribution and sale of strong brands within the sports segment, including GoPro."

"The UHY member in Sweden, WINTHERS, supports us with a range of services. We have outsourced the accounting, but they also help us with auditing and advisory services. When we wanted to expand our business to Denmark, UHY was able to support us through its network – with its Denmark member firm, inforevison.

We were able to continue with a professional network which was already familiar with our company."
